EXP-2026-09-011 — does generic's wording variation move its score?

This is the cell the night was for. EXP-2026-09-010 established that generic words 143 of 276 answers differently on a rerun at the same seed, in the field the grader reads. Whether that reaches the **score** is this measurement.

seed	block q1	n	block q2	n
1729	—	0	—	0
20260906	—	0	—	0
424242	—	0	—	0

Incomplete — 0 of 3 seeds have both blocks graded. No spread is computed, because a spread over a partial set is not the statistic the hypothesis names.

Record

42 of 44 experiments complete.

Not complete:

• EXP-2026-07-010-independent-eval-baseline — superseded

• EXP-2026-09-011-generic-seeded-repeats — planned

Generated 2026-09-07 00:32. Every figure is read from disk at render time; nothing here is carried over from prose.
